

Proportion of non-ordained religious and priests who were alleged perpetrators, taking into account duration of ministry

1. The Royal Commission conducted a survey of 10 Catholic religious institutes in Australia with non-ordained religious members; and 75 Catholic archdioceses/dioceses and religious institutes in Australia with priest members. The survey sought information about the number of their members who ministered in Australia in the period from 1 January 1950 to 31 December 2010, and how long each of them ministered.
2. This information, when analysed in conjunction with the claims data, enabled calculation of what proportion of priest and religious members of these Catholic Church authorities who ministered in the period from 1950 to 2010 were alleged perpetrators of child sexual abuse, relative to the total number of priest and religious members who ministered during the same period, taking into account duration of ministry over the 60 year period.
3. The statistical analysis adopts the weighted average methodology. Data analysts engaged by the Royal Commission advised that this methodology should be used to calculate these proportions as it properly takes into account the risk to children and is the statistically appropriate methodology for calculating proportions over a period of six decades.
4. The weighted average methodology takes into account the duration of ministry of all priests and religious included in the survey. This methodology was used in the calculation of both the numerator (alleged perpetrators) and the denominator (the total number of priests religious who ministered in each Catholic Church authority in the period from 1950 to 2010).
5. The weighted average methodology ensures that a statistically consistent approach is taken to individuals who were in ministry for only a few years, and individuals who were in ministry for decades.
6. For example, if a weighted average methodology was not used, a priest who ministered for only five years in the period 1950-2010 would be counted in exactly the same way (that is, given the same weight,) as a priest who ministered for 50 years in this period. Those who ministered for less time are likely to have come into contact with fewer children, and over time posed less potential risk to children, than those who ministered for a longer period of time. The weighted average methodology ensures that each person is weighted according to their duration of ministry.
7. The weighted average methodology also permits an appropriate comparison between priests and religious who ministered recently with those who ministered many decades ago because it accounts for the tendency for priests and religious who ministered recently to have a shorter duration of ministry than priests and religious who ministered many decades ago.
8. The weighted average methodology further permits an appropriate comparison between different Catholic Church authorities, where there may have been different average periods of ministry for all members of each Catholic Church authority.
9. Compared with a calculation that does not account for differing durations of ministry, the weighted average methodology will result in a lower proportion of alleged perpetrators when

the average duration of ministry for alleged perpetrators is shorter than the average duration of ministry of all priests or religious in a given Catholic Church authority.

10. Compared with a calculation that does not account for differing durations of ministry, the weighted average methodology will result in a higher proportion of alleged perpetrators when the average duration of ministry for alleged perpetrators is longer than the average duration of ministry of all priests or religious in a given Catholic Church authority.
11. In summary, the weighted average methodology is the most appropriate methodology for calculating the proportion of priest and religious members of these Catholic Church authorities who ministered in the period from 1950 to 2010 and who were alleged perpetrators of child sexual abuse, relative to the total number of priests and religious members who ministered during the same period because it:
 - a. ensures a statistically consistent approach is taken to individuals who have ministered for different periods of time
 - b. takes into account the relative risk to children of individuals who have ministered for different periods of time
 - c. takes into account differing average durations of ministry over a period of six decades
 - d. enables the comparison of Catholic Church authorities which have different average periods of ministry.
12. Set out below is detailed information about how the proportion of religious and priests who were alleged perpetrators was calculated using the weighted average methodology. Information is provided for every Catholic Church authority that is included in the proportion calculations in the report *Analysis of claims of child sexual abuse made with respect to Catholic Church institutions*.

Overall – priest members

All Catholic Church authorities with priest members

1. Overall 9,250 members identified in the ministry survey.
2. 512 alleged perpetrators who were priest members identified in the claims data survey.
3. 8,951 members overall retained following cleaning.
4. 507 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24.5 years
 - b. those members who were alleged perpetrators – 30.5 years
 - c. those members who were not subject to a claim of child sexual abuse – 24.2 years.
6. Of the alleged perpetrators (507) their overall weighting for the 60 years is 15,440 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (8,951) their overall weighting for the 60 years is 219,537 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 507/8,951 or 5.7%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 years period is 7.0%.

Diocesan Catholic Church authorities

1. Overall 5,357 members identified in the ministry survey.
2. 344 alleged perpetrators who were priest members identified in the claims data survey.
3. 5,174 members overall retained following cleaning.
4. 340 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 25.8 years
 - b. those members who were alleged perpetrators – 31.0 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.4 years.
6. Of the alleged perpetrators (340) their overall weighting for the 60 years is 10,548 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (5,174) their overall weighting for the 60 years is 133,368 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 340/5,174 or 6.6%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 years period is 7.9%.

Religious Institutes with priest members

1. Overall 3,893 members identified in the ministry survey.
2. 168 alleged perpetrators who were priest members identified in the claims data survey.
3. 3,777 members overall retained following cleaning.
4. 167 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 22.8 years
 - b. those members who were alleged perpetrators – 29.3 years
 - c. those members who were not subject to a claim of child sexual abuse – 22.5 years.
6. Of the alleged perpetrators (167) their overall weighting for the 60 years is 4,892 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (3,777) their overall weighting for the 60 years is 86,169 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 167/3,777 or 4.4%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 5.7%.

Dioceses – priest members

Archdiocese of Adelaide

1. Overall 229 members identified in the ministry survey.
2. 10 alleged perpetrators who were priest members identified in the claims data survey.
3. 222 members overall retained following cleaning.
4. Nine alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 23.8 years
 - b. those members who were alleged perpetrators – 14.3 years

- c. those members who were not subject to a claim of child sexual abuse – 24.2 years.
6. Of the alleged perpetrators (9) their overall weighting for the 60 years is 129 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (222) their overall weighting for the 60 years is 5,285 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 9/222 or 4.1%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 2.4%.

Diocese of Ballarat

1. Overall 202 members identified in the ministry survey.
2. 17 alleged perpetrators who were priest members identified in the claims data survey.
3. 199 members overall retained following cleaning.
4. 17 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 27.1 years
 - b. those members who were alleged perpetrators – 27.6 years
 - c. those members who were not subject to a claim of child sexual abuse – 27.0 years.
6. Of the alleged perpetrators (17) their overall weighting for the 60 years is 470 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (199) their overall weighting for the 60 years is 5,388 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 17/199 or 8.5%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.7%.

Archdiocese of Brisbane

1. Overall 415 members identified in the ministry survey.
2. 30 alleged perpetrators who were priest members identified in the claims data survey.
3. 403 members overall retained following cleaning.
4. 29 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 37.7 years
 - b. those members who were alleged perpetrators – 48.9 years
 - c. Those members who were not subject to a claim of child sexual abuse – 36.8 years.
6. Of the alleged perpetrators (29) their overall weighting for the 60 years is 1,418 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (403) their overall weighting for the 60 years is 15,176 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 29/403 or 7.2%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 9.3%.

Diocese of Bunbury

1. Overall 71 members identified in the ministry survey.
2. 6 alleged perpetrators who were priest members identified in the claims data survey.
3. 69 members overall retained following cleaning.

4. 6 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24.3 years
 - b. those members who were alleged perpetrators – 22.7 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.6 years.
6. Of the alleged perpetrators (6) their overall weighting for the 60 years is 136 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (69) their overall weighting for the 60 years is 1,748 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 6/69 or 8.7%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 7.8%.

Archdiocese of Canberra and Goulburn

1. Overall 213 members identified in the ministry survey.
2. 14 alleged perpetrators who were priest members identified in the claims data survey.
3. 211 members overall retained following cleaning.
4. 14 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24 years
 - b. those members who were alleged perpetrators – 30.4 years
 - c. those members who were not subject to a claim of child sexual abuse – 23.5 years.
6. Of the alleged perpetrators (14) their overall weighting for the 60 years is 425 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (211) their overall weighting for the 60 years is 5058 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 14/211 or 6.6%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.4%.

Diocese of Lismore

1. Overall 131 members identified in the ministry survey.
2. 15 alleged perpetrators who were priest members identified in the claims data survey.
3. 129 members overall retained following cleaning.
4. 15 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 26.1 years
 - b. those members who were alleged perpetrators – 31.3 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.5 years.
6. Of the alleged perpetrators (15) their overall weighting for the 60 years is 469 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (129) their overall weighting for the 60 years is 3,372 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 15/129 or 11.6%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 13.9%.

Diocese of Maitland-Newcastle

1. Overall 215 members identified in the ministry survey.
2. 16 alleged perpetrators who were priest members identified in the claims data survey.
3. 207 members overall retained following cleaning.
4. 16 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24.3 years
 - b. those members who were alleged perpetrators – 24.8 years
 - c. those members who were not subject to a claim of child sexual abuse – 24.3 years.
6. Of the alleged perpetrators (16) their overall weighting for the 60 years is 397 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (207) their overall weighting for the 60 years is 5,040 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 16/207 or 7.7%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 7.9%.

Archdiocese of Melbourne

1. Overall 859 members identified in the ministry survey.
2. 58 alleged perpetrators who were priest members identified in the claims data survey.
3. 842 members overall retained following cleaning.
4. 58 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 29.8 years
 - b. those members who were alleged perpetrators – 35.0 years
 - c. those members who were not subject to a claim of child sexual abuse – 29.4 years.
6. Of the alleged perpetrators (58) their overall weighting for the 60 years is 2,028 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (842) their overall weighting for the 60 years is 25,057(denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 58/842 or 6.9%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.1%.

Diocese of Parramatta

1. Overall 114 members identified in the ministry survey.
2. Three alleged perpetrators who were priest members identified in the claims data survey.
3. 111 members overall retained following cleaning.
4. Three alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 14.1 years
 - b. those members who were alleged perpetrators – 11.7 years
 - c. those members who were not subject to a claim of child sexual abuse – 14.1 years.
6. Of the alleged perpetrators (3) their overall weighting for the 60 years is 35 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (111) their overall weighting for the 60 years is 1,561 (denominator) (adding the total years of ministry of each member for the period 1950-2010).

8. The unweighted proportion is 3/111 or 2.7%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 2.2%.

Archdiocese of Perth

1. Overall 362 members identified in the ministry survey.
2. 20 alleged perpetrators who were priest members identified in the claims data survey.
3. 358 members overall retained following cleaning.
4. 20 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 21.9 years
 - b. those members who were alleged perpetrators – 32.7 years.
 - c. those members who were not subject to a claim of child sexual abuse – 21.2 years.
6. Of the alleged perpetrators (20) their overall weighting for the 60 years is 653 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (358) their overall weighting for the 60 years is 7,825 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 20/358 or 5.6%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.3%.

Diocese of Port Pirie

1. Overall 76 members identified in the ministry survey.
2. 7 alleged perpetrators who were priest members identified in the claims data survey.
3. 74 members overall retained following cleaning.
4. 7 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24.8 years
 - b. those members who were alleged perpetrators – 36.9 years
 - c. those members who were not subject to a claim of child sexual abuse – 23.6 years.
6. Of the alleged perpetrators (7) their overall weighting for the 60 years is 258 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010)
7. Of all members (76) their overall weighting for the 60 years is 1,836 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 7/74 or 9.5%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 14.1%.

Diocese of Rockhampton

1. Overall 137 members identified in the ministry survey.
2. 9 alleged perpetrators who were priest members identified in the claims data survey.
3. 132 members overall retained following cleaning.
4. 8 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 25.5 years
 - b. those members who were alleged perpetrators – 33.6 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.0 years.

6. Of the alleged perpetrators (8) their overall weighting for the 60 years is 269 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (132) their overall weighting for the 60 years is 3,365 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 8/132 or 6.1%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.0%.

Diocese of Sale

1. Overall 85 members identified in the ministry survey.
2. 11 alleged perpetrators who were priest members identified in the claims data survey.
3. 82 members overall retained following cleaning.
4. 11 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 28.2 years
 - b. those members who were alleged perpetrators – 31.6 years
 - c. those members who were not subject to a claim of child sexual abuse – 27.6 years.
6. Of the alleged perpetrators (11) their overall weighting for the 60 years is 348 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (82) their overall weighting for the 60 years is 2,309 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 11/82 or 13.4%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 15.1%.

Diocese of Sandhurst

1. Overall 135 members identified in the ministry survey.
2. 16 alleged perpetrators who were priest members identified in the claims data survey.
3. 133 members overall retained following cleaning.
4. 16 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 26.2 years
 - b. those members who were alleged perpetrators – 32.1 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.4 years.
6. Of the alleged perpetrators (16) their overall weighting for the 60 years is 513 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (133) their overall weighting for the 60 years is 3,479 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 16/133 or 12.0%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 14.7%.

Archdiocese of Sydney

1. Overall 775 members identified in the ministry survey.
2. 47 alleged perpetrators who were priest members identified in the claims data survey.
3. 735 members overall retained following cleaning.
4. 46 alleged perpetrators retained following cleaning and matching.

5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 24.1 years
 - b. those members who were alleged perpetrators – 26.9 years
 - c. those members who were not subject to a claim of child sexual abuse – 23.9 years.
6. Of the alleged perpetrators (46) their overall weighting for the 60 years is 1,238 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (735) their overall weighting for the 60 years is 17,681 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 46/735 or 6.3%.
9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 7.0%.

Diocese of Townsville

1. Overall 108 members identified in the ministry survey.
2. 7 alleged perpetrators who were priest members identified in the claims data survey.
3. 106 members overall retained following cleaning.
4. 7 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 25.4 years
 - b. those members who were alleged perpetrators – 21.9 years
 - c. those members who were not subject to a claim of child sexual abuse – 25.4 years.
6. Of the alleged perpetrators (7) their overall weighting for the 60 years is 153 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (106) their overall weighting for the 60 years is 2,688 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 7/106 or 6.6%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 5.7%.

Diocese of Wollongong

1. Overall 120 members identified in the ministry survey.
2. 9 alleged perpetrators who were priest members identified in the claims data survey.
3. 106 members overall retained following cleaning.
4. 9 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 23.9 years
 - b. those members who were alleged perpetrators – 32.9 years
 - c. those members who were not subject to a claim of child sexual abuse – 23.1 years.
6. Of the alleged perpetrators (9) their overall weighting for the 60 years is 296 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (106) their overall weighting for the 60 years is 2,536 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 9/106 or 8.5%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 11.7%.

Religious institutes – priest members

Dominican Friars

1. Overall 160 members identified in the ministry survey.
2. 4 alleged perpetrators who were priest members identified in the claims data survey.
3. 151 members overall retained following cleaning.
4. 3 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 31.0 years
 - b. those members who were alleged perpetrators – 33.3 years
 - c. those members who were not subject to a claim of child sexual abuse – 32.0 years.
6. Of the alleged perpetrators (3) their overall weighting for the 60 years is 100 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (151) their overall weighting for the 60 years is 4,834 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 3/151 or 2.0%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 2.1%.

Franciscan Friars

1. Overall 323 members identified in the ministry survey.
2. 12 alleged perpetrators who were priest members identified in the claims data survey.
3. 311 members overall retained following cleaning.
4. 12 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 23.0 years
 - b. those members who were alleged perpetrators – 28.2 years
 - c. those members who were not subject to a claim of child sexual abuse – 22.8 years.
6. Of the alleged perpetrators (12) their overall weighting for the 60 years is 338 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (311) their overall weighting for the 60 years is 7,157 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 12/311 or 3.9%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 4.7%.

Marist Fathers - Society of Mary

1. Overall 241 members identified in the ministry survey.
2. 25 alleged perpetrators who were priest members identified in the claims data survey.
3. 237 members overall retained following cleaning.
4. 25 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 21.8 years
 - b. those members who were alleged perpetrators – 28.6 years
 - c. those members who were not subject to a claim of child sexual abuse – 21.0 years.
6. Of the alleged perpetrators (25) their overall weighting for the 60 years is 716 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).

7. Of all members (237) their overall weighting for the 60 years is 5,161 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 25/237 or 10.5%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 13.9%.

Missionaries of the Sacred Heart

1. Overall 369 members identified in the ministry survey.
2. 14 alleged perpetrators who were priest members identified in the claims data survey.

4. 14 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 23.7 years
 - b. those members who were alleged perpetrators – 32.8 years
 - c. those members who were not subject to a claim of child sexual abuse – 23.3 years.
6. Of the alleged perpetrators (14) their overall weighting for the 60 years is 459 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (363) their overall weighting for the 60 years is 8,596 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 14/363 or 3.9%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 5.3%.

Benedictine Community of New Norcia

1. Overall 56 members identified in the ministry survey.
2. 10 alleged perpetrators who were priest members identified in the claims data survey.
3. 53 members overall retained following cleaning.
4. 10 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 27.1 years
 - b. those members who were alleged perpetrators – 30.9 years
 - c. those members who were not subject to a claim of child sexual abuse – 26.3 years.
6. Of the alleged perpetrators (10) their overall weighting for the 60 years is 309 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (53) their overall weighting for the 60 years is 1,438 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 10/53 or 18.9%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 21.5%.

Pallottines - Society of the Catholic Apostolate

1. Overall 69 members identified in the ministry survey.
2. 7 alleged perpetrators who were priest members identified in the claims data survey.
3. 63 members overall retained following cleaning.
4. 7 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 26.1 years

- b. those members who were alleged perpetrators – 32.1 years
- c. those members who were not subject to a claim of child sexual abuse – 25.4 years.
- 6. Of the alleged perpetrators (7) their overall weighting for the 60 years is 225 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
- 7. Of all members (63) their overall weighting for the 60 years is 1,647 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
- 8. The unweighted proportion is 7/63 or 11.1%.
- 9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 13.7%.

Salesians of Don Bosco

- 1. Overall 162 members identified in the ministry survey.
- 2. 22 alleged perpetrators who were priest members identified in the claims data survey.
- 3. 159 members overall retained following cleaning.
- 4. 22 alleged perpetrators retained following cleaning and matching.
- 5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 23.9 years
 - b. those members who were alleged perpetrators – 29.7 years
 - c. those members who were not subject to a claim of child sexual abuse – 22.9 years.
- 6. Of the alleged perpetrators (22) their overall weighting for the 60 years is 653 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
- 7. Of all members (159) their overall weighting for the 60 years is 3796 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
- 8. The unweighted proportion is 22/159 or 13.8%.
- 9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 17.2%.

Society of Jesus - Jesuits

- 1. Overall 381 members identified in the ministry survey.
- 2. 16 alleged perpetrators who were priest members identified in the claims data survey.
- 3. 380 members overall retained following cleaning.
- 4. 16 alleged perpetrators retained following cleaning and matching.
- 5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 22.8 years
 - b. those members who were alleged perpetrators – 33.4 years
 - c. those members who were not subject to a claim of child sexual abuse – 22.3 years.
- 6. Of the alleged perpetrators (16) their overall weighting for the 60 years is 534 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
- 7. Of all members (380) their overall weighting for the 60 years is 8,663 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
- 8. The unweighted proportion is 16/380 or 4.2%.
- 9. The calculation of the proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 6.2%.

Vincentians - The Congregation of the Mission

- 1. Overall 153 members identified in the ministry survey.
- 2. 13 alleged perpetrators who were priest members identified in the claims data survey.

3. 147 members overall retained following cleaning.
4. 13 alleged perpetrators retained following cleaning and matching.
5. Average duration of ministry for the priest members in the 60 year period for:
 - a. members overall – 30.8 years
 - b. those members who were alleged perpetrators – 28.0 years
 - c. those members who were not subject to a claim of child sexual abuse – 31.0 years.
6. Of the alleged perpetrators (13) their overall weighting for the 60 years is 364 (numerator) (adding the total years of ministry of each alleged perpetrator for the period 1950-2010).
7. Of all members (147) their overall weighting for the 60 years is 4,522 (denominator) (adding the total years of ministry of each member for the period 1950-2010).
8. The unweighted proportion is 13/147 or 8.8%.
9. The proportion of priest members who were alleged perpetrators, taking into account the duration of ministry for the 60 year period is 8.0%.

Religious institutes – non-ordained members

Christian Brothers

1. Overall 1680 non-ordained religious members identified in the ministry survey.
2. 271 alleged perpetrators who were non-ordained religious members identified in the claims data survey.
